

## Project Planning Phase

### Project Planning Template (Product Backlog, Sprint Planning, Stories, Story points)

|               |                        |
|---------------|------------------------|
| Date          | 18 October 2022        |
| Team ID       | PNT2022TMID35524       |
| Project Name  | Web Phishing Detection |
| Maximum Marks | 8 Marks                |

#### Product Backlog, Sprint Schedule, and Estimation (4 Marks)

| Sprint   | Functional Requirement (Epic) | User Story Number | User Story / Task   | Story Points | Priority | Team Members                         |
|----------|-------------------------------|-------------------|---|--------------|----------|--------------------------------------|
| Sprint-3 | Registration                  | USN-1             | As a user, I can register for the application by entering my email, password, and confirming my password. | 5            | High     | Aruna Srikamakshi R, Suba Varshini V |
| Sprint-4 |                               | USN-2             | As a user, I will receive a confirmation email once I have registered for the application                 | 5            | High     | Abhinand G, Roshni Balasubramanian   |
| Sprint-4 |                               | USN-3             | As a user, I can register for the application through Facebook and Gmail                                  | 5            | High     | Aruna Srikamakshi R, Suba Varshini V |
| Sprint-3 | Login                         | USN-4             | As a user, I can log into the application by entering email & password                                    | 5            | High     | Aruna Srikamakshi R, Suba Varshini V |
| Sprint-1 | View training dataset         | USN-5             | As a user, I can view the training dataset and all the visualisation techniques on it                     | 10           | High     | Abhinand G, Roshni Balasubramanian   |

| Sprint                                 | Functional Requirement (Epic) | User Story Number | User Story / Task  | Story Points | Priority | Team Members                         |
|--|-------------------------------|-------------------|--|--------------|----------|--------------------------------------|
| Sprint-2                               | Feature Extraction            | USN-6             | As a user, I can extract features from the suspicious URL after Pre-Processing   | 5            | Medium   | Aruna Srikamakshi R, Suba Varshini V |
| Sprint-2                               | Machine Learning Prediction   | USN-7             | As a user, I can make use of machine learning models and receive a ground truth from the selected feature matrix after selecting the required features | 5            | High     | Abhinand G, Roshni Balasubramanian   |
| Sprint-1, Sprint-2, Sprint-3, Sprint-4 | User Interface                | USN-8             | As a user, I can perform all the above activities smoothly via an easy-to-understand User Interface  | 10           | High     | Aruna Srikamakshi R, Suba Varshini V |

#### Project Tracker, Velocity & Burndown Chart: (4 Marks)

| Sprint   | Total Story Points | Duration | Sprint Start Date | Sprint End Date (Planned) | Story Points Completed (as on Planned End Date) | Sprint Release Date (Actual) |
|----------|--------------------|----------|-------------------|---------------------------|---|------------------------------|
| Sprint-1 | 20                 | 6 Days   | 24 Oct 2022       | 29 Oct 2022               | 20  | 29 Oct 2022                  |
| Sprint-2 | 20                 | 6 Days   | 31 Oct 2022       | 05 Nov 2022               | working on the process                          |                              |
| Sprint-3 | 20                 | 6 Days   | 07 Nov 2022       | 12 Nov 2022               | yet to complete                                 |                              |
| Sprint-4 | 20                 | 6 Days   | 14 Nov 2022       | 19 Nov 2022               | still progress                                  |                              |

**Velocity:**

$$AV = \frac{\text{sprint duration}}{\text{velocity}} = \frac{20}{10} = 2$$

**Burndown Chart:**

A burn down chart is a graphical representation of work left to do versus time. It is often used in agile software development methodologies such as Scrum. However, burn-down charts can be applied to any project containing measurable progress over time.
